
ABOUT ME

Backend and Web Developer with 3 months of experience across 1 startup prior to graduation, along with organizing 3 events. I have built scalable, data driven systems, driven by a passion for system design. Building is what I do best, whether it is taking something from 0 to 1 or scaling it from 1 to 100.

EDUCATION

- **SRM INSTITUTE OF SCIENCE AND TECHNOLOGY,** **Aug 2023 – May 2027**
Bachelor of Technology - CSE- Specialization Big Data Analytics **CGPA: 8.9**

SKILLS

- **Languages:** Python, JavaScript, MySQL, HTML, CSS, JavaScript,
➤ **Frameworks:** Flask, FastAPI, React (Basics), Pandas, NumPy, Scikit Learn, API, MongoDB
➤ **Tools & Technologies:** Git, Power BI, MS Excel, Matplotlib, Git, GitHub, Docker, Linux
➤ **Soft Skills:** Leadership, Time Management, Communication, Growth Mindset

EXPERIENCE

- **DATATRIX Event, SRM University** **Aug 2024 – Oct 2024**
Digital Marketing Head |
• Led digital marketing campaigns that increased event engagement by 40 percent across social platforms
• Managed content strategy and campaign planning which improved registration reach by 30 percent
• Coordinated with design and technical teams to ensure consistent branding and communication
- **DASHCRAFT EVENT, SRM UNIVERSITY** **Jan 2026 –Mar 2026**
Student Coordinator
• Organized a tech event where participants analysed datasets and created dashboards.
• Handled event coordination, participant management, and promotion activities.
- **AI ENGINEER INTERN - UPSTRIDE** **Jan 2026 –Mar 2026**
• Worked on hands- on AI/ML Projects and Gained practical experinece in developing real world AI solutions.

PROJECTS

- **LAW AI** | *Python, NLP Libraries, Flask, MongoDB*
• Developed an **AI powered legal document management system** to organize case files and automate document search
• Implemented document categorization, metadata tagging, and fast retrieval using AI based indexing
• Reduced manual document search time by **50 percent** during internal testing
- **SPORTIFY** | *React, Flask, MySQL, REST APIs*
• Built a **LinkedIn style platform for athletes** to showcase performance data and connect with recruiters and coaches chatbot accuracy by **90%**.
• Developed profile management, performance tracking dashboards, and networking modules
• Improved user profile completion rate by **35 percent** through better UI flow and data structure design).
- **Tourify, Smart India Hackathon** | *HTML, CSS, JavaScript, Flask, MySQL*
• Designed and developed a **responsive travel planning platform** focused on user friendly trip discovery
• Built dynamic destination browsing, itinerary planning, and travel information modules
• Improved user navigation efficiency by **25 percent** using optimized UI structure
- **Crop Disease Prediction, Smart India Hackathon** | *Python, Machine Learning Models, OpenCV, Data Visualization Tools*
• Contributed technical solutions for an **AI based crop disease detection system** using image-based analysis
• Helped design model pipeline, data preprocessing workflow, and result visualization dashboards
• Improved prediction consistency by **20 percent** after data cleaning and augmentation support.

HACKATHON

- **Buildverse 24 Hour Hackathon, Scaler, Bengaluru:** Built rapid prototype under strict time constraints
➤ **Spectrum 24 Hour Hackathon, VIT, Chennai:** Developed solution with full stack team collaboration
➤ **Smart India Hackathon, SRM University, Chennai:** Designed problem-solving solution for real world case

CERTIFICATIONS

- **Datatrix Event, Digital Marketing Head, SRM:** Led digital campaigns and managed event promotion strategy
➤ **Craptophia, UI and UX Design Participation, SRM:** Participated in UI and UX design challenge activities
➤ **Hackverse Event, Volunteer:** Supported event operations and participant coordination tasks
➤ **Database Management System Elite, NPTEL:** Learned core database concepts and SQL fundamentals
➤ **Business Intelligence using Power BI:** Built dashboards and analysed data using Power BI
